About me

I'm a highly skilled and versatile full-stack developer with a passion for building robust and scalable applications.

Throughout my career, I have been dedicated to creating modular systems and delivering high-quality software solutions. Having honed my software development and engineering skills over the years, I am now eager to contribute my expertise to enhance and elevate a company's impressive line of applications. With a track record of success in delivering innovative solutions and a personable approach to collaboration, I am confident in my ability to drive positive outcomes and exceed expectations.

Check my github [here](#), and my portfolio [here](#).

Experience

Client: Rwanda TVET Board

Role: Backend Engineer and Team Lead (Remote)

Time: March 2022 - Present

- Developed and implemented a scalable microservices architecture, resulting in a 50% increase in system performance and reducing response time by 30%.
- Led a team of 8 engineers in the successful delivery of a critical backend project, meeting all deadlines and achieving a 95% customer satisfaction rating.
- Implemented DevOps practices, including continuous integration and deployment, resulting in a 50% reduction in deployment time and improving overall release stability.
- Implemented automated testing processes, resulting in a 70% reduction in regression bugs and improving overall software quality.
- Usage of agile development methodologies, increasing team productivity by 25% and enabling faster time-to-market for new features.
- You can visit the System we worked on [here](#)

Client: Umurava Work

Role: Part time Software Developer (Remote)

Time: Dec 2022 - Sept 2023

- Developed and maintained a robust component library, reducing development time by 30% and ensuring consistent design across multiple projects.
- Actively participated in Agile development methodologies, ensuring timely delivery of features and enhancements, with an average sprint completion rate of 95%.
- Proactively kept up-to-date with the latest frontend technologies and trends, regularly attending conferences and workshops, and applied new techniques resulting in a 30% improvement in code efficiency.
- Website: <https://umurava.africa/>

Client: SynerTech

Role: FullStack Developer (Remote)

Time: May 2022 - March 2023

- Completed 100% of assigned tasks within deadlines, ensuring timely project delivery.
- Successfully deployed the clinic management app, resulting in a 20% increase in operational efficiency.
- Integrated databases into the application, managing over 10,000 records without any data loss or performance issues.
- Visit their website for more: <https://synertech.rw>

Client: CBLink, Rwanda

Role: Web Developer (Hybrid)

Time: May 2021 - May 2022

- Developed stock management app on time, achieving 100% completion rate.
- Improved operational efficiency by 35% through streamlined processes and automated invoicing.
- Deployed the app, resulting in a 50% increase in user adoption and positive stakeholder feedback.
- Visit their website for more: <https://cblink.rw>

Courses and Certifications

- JavaScript Algorithms And Data Structures from **Freecodecamp**
- Responsive Web Design from **Freecodecamp**

Skills

- **Languages:** Typescript, Javascript, Java, Python, CSS
- **Frameworks:** ReactJS, NextJS, Node Js, Nest Js, Springboot, FastAPI, Django
- **Mobile Development:** Expo, React Native, Flutter
- **ORMs:** Prisma, Mongoose, Sequelize, TypeORM
- **Databases:** Postgres, MongoDB, MySQL
- **Version control:** Git, Github, Gitlab, Bitbucket
- **Teamwork and communication:** Trello, Jira, Slack
- **CI/CD and DevOps:** Docker, Jenkins, GitHub actions, Gitlab
- **Styling:** Tailwind, Bootstrap, Sass
- WebSockets, JWT
- Firebase
- Restful and GraphQL APIs
- PWAs (Progressive Web Apps)
